SUMMARY

As a dedicated Frontend Developer and UI Designer, I have honed my expertise in crafting intuitive and visually appealing digital experiences. With practical internship experience and a passion for technology, I excel in collaborating with cross-functional teams and leveraging tools such as React, HTML, CSS, and Figma to bring design concepts to life. Currently, I'm pursuing a Btech degree in CSE, further enhancing my technical and design skills.

EXPERIENCE

UI Designer Internship

Rupsa Network Pvt. Ltd.

04/2024 - 06/2024 Ranaghat, West Bengal

PROJECTS

Frontend Development

Ecommerce website frontend with various interactive features.

- Developed a user-friendly sign-up feature for new account creation.
- Implemented a secure login system for returning users.
- Added a simple and efficient sign-out option.
- Created an interactive 'add to cart' function.
- Utilized HTML and CSS for foundational layout and styling.
- Implemented React for dynamic and interactive user interfaces.
- Used Figma for design and prototyping.

User Interface Design

Digital agency's web presence redesign.

- Collaborated with the development team for the project's success.
- Analyzed competitor websites to identify areas for improvement.
- Created wireframes and prototypes with Figma to visualize the layout and design elements.
- Developed user personas and journey maps to guide design decisions.
